

Rocks
to David Gordon

New York City, May 5, 1986

Bring any of the following: radios, television sets, playbacks, cassette machines, alone or together with machines emitting relatively fixed sounds (e.g. vacuum cleaners, buzzers, alarms, feedback), give each of 3 to 5 its own fixed point in space (all 3 to 5 to begin together not stopping until another 3 to 5 begin - avoid an overlap). Continue as long as desired. Any dynamics, any durations.

Philip
